Enjoy a forum for parents to share experiences with other families, for infants to interact with an age-appropriate Montessori environment, and for tools families can access to bring Montessori into the home.

TOPICS

• Setting Up the Home Environment
• Physical Development/Movement
• Mealtime and Nutrition
• Montessori Theory
• Language Development
• Getting Curious About Your Child
• Discipline (Freedom within Limits)
• What Comes Next?
  (Child development over the years)
Classes Include

- Weekly experiences in a Montessori infant environment, while a Certified Montessori guide creates opportunities for parents to observe and learn about their child’s development.
- Monthly parent-only discussions facilitated by a Montessori guide.
- Online resources including: topical links, videos, and reading, that align with the course outline.
- Access to a private, online share site in which parents can interact and share information and suggestions.
- A home consultation, if desired.

Classes are divided into 8-week sessions and are facilitated by a Montessori certified guide. During these weekly sessions, parents have the opportunity to witness and learn more about the wonder of their child’s development. Additionally, time will be dedicated to incorporating the Montessori principles into their home environment.

Parent Infant Guide

Courtney Baros, M.Ed., AMI, has worked with children for most of her life. She is certified through the Association Montessori Internationale, specializing in birth-3 years, but has worked with every Montessori age group since her introduction into the philosophy in 2002. Her two sons have grown up in Montessori philosophy at MCHD. Before devoting herself to Montessori education in 2002, she spent 7 years as a co-owner of a resource center for new parents and where she taught numerous classes and helped mothers as a volunteer lactation consultant. Courtney serves as the Director of the MCHD Park Hill Campus when she is not working with parents and infants.
